

The “op_sgrades” folder for Adobe SpeedGrade CC should be copied into the application package. On a Mac, right-click the SpeedGrade CC application icon and select “Show Package Contents”. Please copy the “op_sgrades” folder into:

Contents > MacOS > Look Examples.

These color board presets were created under Adobe SpeedGrade CC, Mac OS X 10.9.2. I have not tested these with earlier versions nor on Windows computers.

There is no guarantee that they will work in future versions. There is no explicit or implied warranty. By downloading and installing these presets, you hold the author (Oliver Peters) free and clear from any claims and/or damages. Installation is at your own risk.

The creation of these presets belongs to the author (Oliver Peters). They are made available to the user for non-commercial use. You may use them on any production, but are not granted any permission to redistribute them for other uses.
